How every I write poems now and then and of you are interested I will try and give you several. As for as news go I depend mainly on letters and news report for that. How every we try to do our part at Brungiwell I guess you have already read about that. Uncle Sam doesn’t like us to write to much about it. But I will say I am glad went to Church and learn to pray. Because on several evens I believe I [illegible] all that was in the book. I have send Mom a few small things from the Southwest. So if you are interested I am sure she would be glad to show them to you. Well I believe this covers just about everything so I will close for this time. Thanks a lot for the papers. And the person behind the idea. It is something I believe all Men and Women of W-L will be glad to read.
