3:00 AM

Dear Sally,

I'm working tonight or I should say on duty as C. Q. I'm afraid I'm guilty of procrastination in the case of about a half dozen letters.

Before you have a chance to answer this I'll be at Randolph Field, Texas going to the Flight School Surgeon Assistant's School which is a part of the School of Aviation Medicine at Randolph Field. (Isn't this a mess?)

The Flight Surgeon's Department is responsible for the care of flying personal. The implication is that a Flight Surgeon's Assistant assists in operations but that is not true. I'll learn how to assist in physical exams and all the paper work connected with that office.

Everything in Memphis is okay but don't start checking me off the bachelor list yet as I'll be on it for any ~~length~~ length of time from 1 year up.

I got a card from Bloomings.

Paul Kringel is in Kansas but I don't exactly know where. Lovell Day '43 is still in Ft. Benning but is leaving soon for College in A.S.T.P.

I'll only be at Randolph Field until April 25 which isn't really long.

So long, Yours,

George
